Find rack mount DC power supplies for ATE, EV, and industrial test systems. Scalable, programmable, and ready for automation with remote interfaces.

A rackmount UPS with line interactive topology, the UltraTech 0E-1000VASNM provides battery backup and surge protection for servers, network devices, and telecom installations without an active power ...

These power supplies (Table 1) all provide high, reliable power with low noise and excellent regulation and can be controlled from the front panel or remotely through a number of interface options.

Suitable for both the bench-top during product design and development, as well as rack mount ATE systems during QC and burn-in testing and during production, semiconductor testing, ...

Providing reliable and cost effective power distribution, the Basic PDU offers IEC outlet grips, tool-less installation in server racks, color-coded outlet sections and a high operating temperature.

To increase its mounting efficiency, it has a 19-inch rack width with a thin shape and intakes and outtakes for cooling on only the front and back surfaces so that it can be mounted flush top and ...

The adjustable DC power supply makes output voltage continuously variable from zero to full range in constant voltage mode, maximum 5000V. In constant current mode, the output current is adjustable ...

The PCH series are high power output Switching DC power supply with rated power or 600W to 5KW. The PCH series adopts ZVZCS PWM technology, which greatly reduces switching ...

This power supply unit has a robust and compact design. With dimensions of 430mm in width, 510mm in depth, and 108mm in height, it is easy to install in standard equipment racks or on workbenches.

US Communication Power Supply Rack 1000V

All models are CE and UKCA marked in accordance with the Low Voltage, EMC and RoHS Directives, have worldwide Safety Agency approvals (UL/cUL/IEC/EN 61010-1) and offer a five year warranty.

Output Power Expansion Multi-Range Two-In-One Table 1: Single-Output High-Voltage Programmable DC Power Supplies The dual range feature of the 9185 gives users the ability to select between higher current capability at a lower voltage range (up to 400V and 500mA) or higher voltage capability at a lower current range (up to 600V and 350mA). This allows more applications to be addressed by a single supply. See more on mouser TDK-Lambda Americas Genesys(TM) | Products | TDK-Lambda Americas All models are CE and UKCA marked in accordance with the Low Voltage, EMC and RoHS Directives, have worldwide Safety Agency approvals ...
