In the sentence "Why is this here?", is "why" an adverb? What part of speech is "why"? I think it modifies the verb "is", so I think it is an adverb.

8 1) Please tell me why is it like that. [grammatically incorrect unless the punctuation is changed. Please tell me: Why is it like that? The question: "Why is [etc.]" is a question form in ...

Brackets are one of the most important accessories for installing PV, and there are many types to choose from in the form of connection, mounting structure, and installation location.

Why the voiced /z/ won out over the voiceless /s/ is not clear to me. Modern French mostly uses /gz/, as in xénophobie, but I don't know the history of how the modern French ...

Solar panels can be mounted on elevated racking so they can share space with other land uses, such as parking lots.

But what's driving this shift? Let's face it - photovoltaic (PV) systems face brutal environmental challenges. From coastal salt spray to desert sandstorms, traditional materials often ...

The history told me nothing why an involuntary, extremely painful spasm, is named after a horse called Charley. Charley in the UK is often spelled Charlie, a diminutive of Charles, and it's ...

Why have a letter in a word when it's silent in pronunciation, like the b in debt? Can anyone please clarify my uncertainty here?

Flexible photovoltaic brackets are usually composed of flexible materials and metal materials, such as aluminum alloy, stainless steel, etc. Flexible materials provide solar panels with better ...

Why do photovoltaic brackets need high-pressure pipes

As an important part of the PV power generation system, PV mounting directly affects the operational safety of PV modules, breakage rate, and construction investment. Choosing the right PV ...

From material selection to installation precision, photovoltaic panel brackets play a crucial role in solar system performance. By understanding technical requirements and market trends, you can make ...

Why is it called hypochondria instead of hyperchondria? [closed] Ask Question Asked 5 years, 5 months ago Modified 5 years, 5 months ago

W-style brackets are particularly well-suited to large photovoltaic power stations and regions with high winds, ensuring the stable operation and long-term durability of photovoltaic systems. ...

I don't know why, but it seems to me that Bob would sound a bit strange if he said, "Why is it that you have to get going?" in that situation.

Why is used here as an interjection. According to Merriam-Webster: --used to express mild surprise, hesitation, approval, disapproval, or impatience <why, here"s what I was looking for> In my ...

The wind load effect occurs when gusts impact the back of the photovoltaic modules, increasing the pressure on the installation. To reduce this impact and improve structural safety, choosing the right ...
